Brooke, as per our conversation today we are going through the process of compiling all of our records as per your request and sending them through, my apologies that it's going to come over in multiple emails because the size of the files, in reading your document later this evening, I realized that you had sent a letter out, unfortunately I don't believe we received the letter until today, in any event we will continuously send you all the data that we have immediately, The outbound data is very easy, the inbound data will be categorize per location and will take a little more time but we should be able to get everything done in just a couple of days. My apologies if it seems we are not being 100% cooperative, it wasn't until today that I got everybody on the same page so they understand exactly what the request was exactly.

Thank you
